Project Management Coursework Projects

Professional Summary

I am a project management professional transitioning from four years of legal practice into project coordination and operational support, backed by a year-long practical traineeship in project delivery and PRINCE2 and Agile Foundation certifications. I apply structured thinking, precise documentation, and practical risk and issue management to keep multi-party projects organised and on track.

I specialise in administrative project delivery, organisational mapping, and plain-language documentation for advisory teams, with hands-on experience producing PID documents, RAG reporting, risk registers and sprint reports using tools such as MS Project, Excel, Jira and Google Sheets. I managed a portfolio of over 40 legal matters and delivered a PRINCE2-modelled project that met all acceptance criteria while preventing two major rework cycles, demonstrating the attention to detail and GDPR-aware record-keeping Braun Management seeks.

Core Skills

Stakeholder management and coordination across legal, operations and care teams • Meeting and client coordination, agendas, minute-taking and follow-up tracking • Plain-language report writing, briefing notes and meeting summaries • Organisational mapping and creation of corporate charts and decision workflows • Project administration, schedule and deliverables tracking (RAG reporting) • High attention to detail, accuracy in records and data entry

Technical Skills

Notion for structured documentation and project pages • Jira (backlog management, sprint tracking, issue tickets) • Confluence for internal documentation organisation and version control • Google Sheets for administrative databases and simple data dictionaries • Microsoft Excel including pivot tables and VLOOKUP for record management • MS Project for schedule baseline, variance tracking and resource views

Experience

IT Career Switch Ltd, London, UK (May 2025 - 6 May 2026)

Project Management Coursework Projects

- Delivered a PRINCE2-modelled project, creating PID, stage plans and RAG reporting using MS Project and Excel, meeting all acceptance criteria within the baseline schedule.

- Built and maintained schedule and budget baselines in MS Project and Excel, tracked variance and escalated 12+ issues with mitigation plans to stakeholders, reducing forecasted rework by an estimated 30%.
- Created and managed a risk register and change control log using Excel, preventing two major rework cycles through early escalation and stakeholder sign-off.

London Care Limited (Jul 2024 6 2026)

Care Assistant

- Maintained accurate electronic care records and activity logs using organisational systems, ensuring timely updates and GDPR-aware handling of sensitive data.
- Coordinated daily schedules and logistics for 8-12 clients per shift, producing concise handover notes and meeting summaries to support continuity of care.
- Communicated clearly with multidisciplinary teams and family stakeholders, escalating health or safeguarding concerns and contributing to risk registers and care plan updates.

A.C. Nwosu & Associate, Nigeria (Jan 2021 6 Feb 2023)

Legal Practitioner

- Managed a portfolio of over 40 civil and commercial litigation matters, organising case files, public records and timelines to deliver favourable outcomes and reduce potential court delays.
- Mapped corporate structures and prepared organisational charts and decision workflow diagrams for due diligence exercises, informing senior stakeholders and commercial clients' acquisition decisions.
- Drafted plain-language briefing notes, legal opinions and meeting minutes for clients and internal teams, improving clarity and reducing turnaround on approvals by approximately 25%.

Niger Delta Project Consortium Ltd, Nigeria (Aug 2020 6 Dec 2020)

In-House Lawyer

- Negotiated and achieved a favourable multi-party settlement in an oil-spillage dispute, coordinating stakeholders, compiling public records and reducing potential litigation costs for the company.
- Reviewed and filed administrative and public records, advised departments on compliance and maintained centralised documentation to support property and tax appeals.
